EHR Certification

No changes to the certification requirements for objectives and measures of meaningful use for EHR reporting periods in 2015 through 2017.

Providers continue to use technology certified to the 2014 Edition for EHR reporting period in 2015 and subsequent years until they transition to health information technology certified to the 2015 Edition that is required for EHR reporting period in 2018.

Note: Providers may upgrade early to technology certified to the 2015 Edition for EHR reporting period prior to 2018 as outlined in final rule.

Overview of 2015-2017 (Modified Stage 2) Requirements

Goals of Provisions

1

Align with Stage 3 to achieve overall goals of programs

2

Synchronize reporting period objectives and measures to reduce burden

3

Continue to support advanced use of health IT to improve outcomes for patients

Changes for 2015-2017 (Modified Stage 2)

Final Rule for Medicare and Medicaid EHR Incentive Programs:

- Changes EHR reporting period in 2015 to 90-day period to accommodate modifications
- Aligns EHR reporting period with full calendar year
- Streamlines program by removing redundant, duplicative and topped out measures
- Modifies patient action measures related to patient engagement
- Modifies public health reporting requirements

Alignment of Meaningful Use

The rule reconciles measures to align 2015-2017 (Modified Stage 2) with Stage 3 to:

- Prepare providers to report Stage 3 criteria in 2018
- Reduce provider burden and create a single set of sustainable objectives that promote best practices for patients
- Enable providers to focus on objectives, which support advanced use of health IT, such as:
 - Health information exchange
 - Consumer engagement
 - Public health reporting

Changes to Patient Access Objectives

The following changes are effective for providers for EHR reporting period beginning in 2015:

Changing threshold from Stage 2 objective for Patient Electronic Access measure #2 from 5% to equal to or greater than **1 patient** seen by provider or discharged from hospital

Changing threshold from Stage 2 objective Secure Electronic Messaging from percent to **functionality fully enabled** (yes/no)

Modified Stage 2 Objectives & Measures For Eligible Professionals, Eligible Hospitals and CAHs

Modified Stage 2 Objectives

- 1 Protect Patient Health Information
- 2 Clinical Decision Support
- 3 CPOE
- 4 Electronic Prescribing (eRx)
- 5 Health Information Exchange
- 6 Patient Specific Education
- 7 Medication Reconciliation
- 8 Patient Electronic Access (VDT)
- 9 Secure Messaging (EPs only)
- 10 Public Health and Clinical Data Registry Reporting Reporting

Modified Stage 2 Objectives

Protect Patient Health Information

- **Objective**: Protect electronic health information created or maintained by the CEHRT through the implementation of appropriate technical capabilities.
- **Measure**: Conduct or review a security risk analysis in accordance with the requirements in 45 CFR 164.308(a)(1), including addressing the security (to include encryption) of ePHI created or maintained by CEHRT in accordance with requirements under 45 CFR 164.312(a)(2)(iv) and 45 CFR 164.306(d)(3), and implement security updates as necessary and correct identified security deficiencies as part of the EP, eligible hospital, or CAH's risk management process.

Modified Stage 2 Objectives

Clinical Decision Support

- **Objective:** Use clinical decision support to improve performance on high-priority health conditions.
- **Measure 1:** Implement five clinical decision support interventions related to four or more clinical quality measures at a relevant point in patient care for the entire EHR reporting period. Absent four clinical quality measures related to an EP, eligible hospital's or CAH's scope of practice or patient population, the clinical decision support interventions must be related to high-priority health conditions.
- **Measure 2:** The EP, eligible hospital, or CAH has enabled and implemented the functionality for drug-drug and drug allergy interaction checks for the entire EHR reporting period.
- *There is an exclusion as well as an alternate objective and measure for Stage 1 providers in 2015.*

Modified Stage 2 Objectives

Computerized Provider Order Entry (CPOE)

- **Objective:** Use CPOE for medication, laboratory, and radiology orders directly entered by any licensed healthcare professional who can enter orders into the medical record per state, local, and professional guidelines.
- **Measure 1:** More than 60 percent of medication orders created by the EP or by authorized providers of the eligible hospital's or CAH's inpatient or emergency department (POS 21 or 23) during the EHR reporting period are recorded using computerized provider order entry.
- **Measure 2:** More than 30 percent of laboratory orders created by the EP or by authorized providers of the eligible hospital's or CAH's inpatient or emergency department (POS 21 or 23) during the EHR reporting period are recorded using computerized provider order entry.
- **Measure 3:** More than 30 percent of radiology orders created by the EP or by authorized providers of the eligible hospital's or CAH's inpatient or emergency department (POS 21 or 23) during the EHR reporting period are recorded using computerized provider order entry.
- *There are exclusions as well as two alternate exclusions for Stage 1 providers scheduled to demonstrate in 2015 and 2016, and an alternate measure for Stage 1 providers in 2015 only.*

Modified Stage 2 Objectives

Electronic Prescribing (eRx)

- **EP Objective:** Generate and transmit permissible prescriptions electronically (eRx).
- **EP Measure:** More than 50 percent of permissible prescriptions written by the EP are queried for a drug formulary and transmitted electronically using CEHRT.
- **Eligible Hospital/CAH Objective:** Generate and transmit permissible discharge prescriptions electronically (eRx).
- **Eligible Hospital/CAH Measure:** More than 10 percent of hospital discharge medication orders for permissible prescriptions (for new and changed prescriptions) are queried for a drug formulary and transmitted electronically using CEHRT.
- *There are exclusions for EPs and eligible hospitals/CAHs as well as an alternate measure for EPs scheduled to demonstrate Stage 1 in 2015, and an alternate exclusion for eligible hospitals/CAHs scheduled to participate in Stage 1.*

Modified Stage 2 Objectives

Health Information Exchange

- **Objective:** The EP, eligible hospital, or CAH who transitions their patient to another setting of care or provider of care or refers their patient to another provider of care provides a summary care record for each transition of care or referral.
- **Measure:** The EP, eligible hospital or CAH that transitions or refers their patient to another setting of care or provider of care must-- (1) use CEHRT to create a summary of care record; and (2) electronically transmit such summary to a receiving provider for more than 10 percent of transitions of care and referrals.
- *There is an exclusion as well as an alternate exclusion for Stage 1 providers in 2015*

Modified Stage 2 Objectives

Patient Specific Education

- **Objective**: Use clinically relevant information from CEHRT to identify patient-specific education resources and provide those resources to the patient.
- **EP Measure**: Patient-specific education resources identified by CEHRT are provided to patients for more than 10 percent of all unique patients with office visits seen by the EP during the EHR reporting period.
- **Eligible Hospital/CAH Measure**: More than 10 percent of all unique patients admitted to the eligible hospital's or CAH's inpatient or emergency department (POS 21 or 23) are provided patient-specific education resources identified by CEHRT.
- *There is an exclusion as well as an alternate exclusions for Stage 1 providers.*

Modified Stage 2 Objectives

Medication Reconciliation

- **Objective**: The EP, eligible hospital, or CAH who receives a patient from another setting of care or provider of care or believes an encounter is relevant performs medication reconciliation.
- **Measure**: The EP, eligible hospital or CAH performs medication reconciliation for more than 50 percent of transitions of care in which the patient is transitioned into the care of the EP or admitted to the eligible hospital's or CAH's inpatient or emergency department (POS 21 or 23).
- *There is an exclusion as well as an alternate exclusion for Stage 1 providers in 2015*

Modified Stage 2 Objectives

Patient Electronic Access (for EPs)

- **EP Objective:** Provide patients the ability to view online, download, and transmit their health information within 4 business days of the information being available to the EP.
- **EP Measure 1:** More than 50 percent of all unique patients seen by the EP during the EHR reporting period are provided timely access to view online, download, and transmit to a third party their health information subject to the EP's discretion to withhold certain information.
- **EP Measure 2:** For an EHR reporting period in 2015 and 2016, at least one patient seen by the EP during the EHR reporting period (or patient-authorized representative) views, downloads or transmits his or her health information to a third party during the EHR reporting period. For an EHR reporting period in 2017, more than 5 percent of unique patients seen by the EP during the EHR reporting period (or his or her authorized representatives) view, download or transmit health information to a third party during the EHR reporting period.
- *There are exclusions plus an alternate exclusion for Measure 2 for Stage 1 providers in 2015.*

Modified Stage 2 Objectives

Patient Electronic Access (for eligible hospitals/CAHs)

- **Eligible Hospital/CAH Objective:** Provide patients the ability to view online, download, and transmit their health information within 36 hours of hospital discharge.
- **Measure 1:** More than 50 percent of all unique patients who are discharged from the inpatient or emergency department (POS 21 or 23) of an eligible hospital or CAH are provided timely access to view online, download and transmit to a third party their health information.
- **Measure 2:** For an EHR reporting period in 2015 and 2016, at least 1 patient who is discharged from the inpatient or emergency department (POS 21 or 23) of an eligible hospital or CAH (or patient-authorized representative) views, downloads or transmits to a third party his or her information during the EHR reporting period. For an EHR reporting period in 2017, more than 5 percent of unique patients discharged from the inpatient or emergency department (POS 21 or 23) of an eligible hospital or CAH (or patient authorized representative) view, download or transmit to a third party his or her information during the EHR reporting period.
- *There is an exclusion as well as an alternate exclusion for Measure 2 for Stage 1 providers in 2015.*

Modified Stage 2 Objectives

Secure Messaging (EPs only)

- **Objective:** Use secure electronic messaging to communicate with patients on relevant health information.
- **Measure:** For an EHR reporting period in 2015, the capability for patients to send and receive a secure electronic message with the EP was fully enabled during the EHR reporting period.
- For an EHR reporting period in 2016, for at least 1 patient seen by the EP during the EHR reporting period, a secure message was sent using the electronic messaging function of CEHRT to the patient (or the patient-authorized representative), or in response to a secure message sent by the patient (or the patient-authorized representative).
- For an EHR reporting period in 2017, for more than 5 percent of unique patients seen by the EP during the EHR reporting period, a secure message was sent using the electronic messaging function of CEHRT to the patient (or the patient-authorized representative), or in response to a secure message sent by the patient (or the patient-authorized representative).
- *There is an exclusion as well as an alternate exclusion for Measure 2 for Stage 1 providers in 2015.*

Modified Stage 2 Objectives

Public Health Reporting

- **Objective:** The EP, eligible hospital or CAH is in active engagement with a public health agency to submit electronic public health data from CEHRT except where prohibited and in accordance with applicable law and practice.
- *EPs must meet 2 of 3 measures; eligible hospitals/CAHs must meet 3 of 4 measures:*
- **Measure 1 - Immunization Registry Reporting:** The EP, eligible hospital, or CAH is in active engagement with a public health agency to submit immunization data.
- **Measure 2–Syndromic Surveillance Reporting:** The EP, eligible hospital, or CAH is in active engagement with a public health agency to submit syndromic surveillance data.
- **Measure 3–Specialized Registry Reporting** - The EP, eligible hospital, or CAH is in active engagement to submit data to a specialized registry.
- **Measure 4 – Electronic Reportable Laboratory Result Reporting (for Eligible Hospitals/CAHs only):** The eligible hospital or CAH is in active engagement with a public health agency to submit electronic reportable laboratory (ELR) results.
- **Alternate Specification:** An EP scheduled to be in Stage 1 in 2015 may meet 1 measure and an eligible hospital or CAH scheduled to be in Stage 1 in 2015 may meet two measures.
- *Multiple exclusions apply.*

Clinical Quality Measures

No changes to CQM selection or reporting scheme from CQM requirements in Stage 2 rule

For EHR reporting period in 2015 (and for providers participating for first time in 2016), providers attest to any continuous 90-day period of CQM data during calendar year through Medicare EHR Incentive Program

Registration and Attestation site – Providers also have option to electronically report CQM data using established methods for electronic reporting

For 2016 and subsequent years, providers beyond first year of meaningful use may attest to one full calendar year of CQM data or electronically report CQM data using established methods for electronic reporting

Stage 3 Requirements

Goals of Stage 3 Provisions

1

Provide a flexible, clear framework to simplify the meaningful use program and reduce provider burden

2

Ensure future sustainability of Medicare and Medicaid EHR Incentive Programs

3

Advance the use of health IT to promote health information exchange and improved outcomes for patients

Stage 3 Streamlines Programs

- Synchronizes on single stage and single reporting period
- Reduces burden by removing objectives that are:
 - Redundant paper based versions of now electronic functions
 - Duplicative of other more advanced measures using same certified EHR technology function
 - Topped out and have reached high performance
- Focuses on advanced use objectives (8)

Stage 3 Objectives

- 1 Protect Electronic Health Information
- 2 Electronic Prescribing (eRx)
- 3 Clinical Decision Support
- 4 Computerized Provider Order Entry (CPOE)
- 5 Patient Electronic Access to Health Information
- 6 Coordination of Care through Patient Engagement
- 7 Health Information Exchange
- 8 Public Health Reporting

Stage 3 Comment Period

- The final rule includes a 60-day comment period on the Stage 3 portion of the rule.
- Seeking comments on Stage 3:
 - Measures
 - Objectives
 - Reporting Periods
- Any modifications to Stage 3 based on those comments will be proposed through notice and comment rulemaking in future regulations.
